

Technical Writer

2010 09 15

Are you an experienced Technical writer with the ability to describe and clarify difficult technical context in a easy to understand and pedagogic way? Then perhaps this job within Technical Support – R&D is something for you.

We are changing our methods and the way we work with our technical documentation. Your first challenge will be to take part in the implementation of a XML-based system.

Our technical documentation includes both user manuals and mounting instructions for our products. Our company has a global market witch is why you will be producing pictures and texts in Swedish and English and also coordinate translations of these documents. You will be partaking in development projects where your role is to secure that the technical documentation is ready in time.

This position is placed at our office in Brännland, Umeå and is to be filled immediately.

We are looking to find someone with a university degree in technical writing or other appropriate aim. We want you to have at least 2 years of experience within technical documentation and that your language skills are high in Swedish and English. Experience from work with CE-standards, InDesign, Illustrator or some XML-based system is a merit.

For further information about this position, please contact:

Lars Nilsson, Manager Technical Support. For other questions, please contact: Anna Nordström, HR-department. You can reach us at: +46 90 170 500

We need your application by September 15th, 2010.
